p < 0.001
p < 0.05
311/1318 regulation of intracellular signal transduction
extrinsic apoptotic signaling pathway via death domain receptors
kappaB signaling
defense response
response to virus
response to biotic stimulus
regulation of response to external stimulus
regulation of defense response
regulation of response to stress
pattern recognition receptor signaling pathway
negative regulation of NF-kappaB transcription factor
356/1300 regulation of protein modification process
response to stimulus
response to interferon-gamma
negative regulation of response to stimulus
enzyme linked receptor protein signaling pathway
protein modification by small protein conjugation or removal
positive regulation of transcription by RNA polymerase II
leukocyte differentiation
tissue morphogenesis
negative regulation of developmental process
negative regulation of multicellular organismal process
178/732 regulation of anatomical structure morphogenesis
regulation of non-canonical Wnt signaling pathway
angiogenesis
regulation of anion transport
295/1241 regulation of transport
regulation of small GTPase mediated signal transduction
regulation of cytoskeleton organization
regulation of cell projection organization
movement of cell or subcellular component
cell projection organization
protein demethylation
demethylation
RNA metabolic process
negative regulation of gene expression
translational initiation
fatty acid metabolic process
unsaturated fatty acid biosynthetic process
lipid biosynthetic process
small molecule biosynthetic process
aromatic compound biosynthetic process
organic cyclic compound biosynthetic process
cellular nitrogen compound biosynthetic process
nucleobase-containing small molecule metabolic process
nucleobase-containing compound metabolic process
organonitrogen compound biosynthetic process
cellular amide metabolic process
regulation of fatty acid metabolic process
fatty acid metabolic process
monocarboxylic acid catabolic process
lipid oxidation
organic acid transport
carbohydrate metabolic process
digestion
NADH metabolic process
NADH dehydrogenase complex assembly
obsolete oxidation-reduction process
heterochromatin assembly by small RNA
chromatin assembly
proteasomal ubiquitin-independent protein catabolic process
