

**40/64 photosystem**

**94/167 thylakoid membrane**

*5/9 proton-transporting ATP synthase complex, coupling factor F(o)*

**269/569 plastid**

*20/52 integral component of presynaptic membrane*

**151/390 intrinsic component of plasma membrane**

*8/18 C-fiber*

**26/61 sodium channel complex**

**270/591 membrane protein complex**

**136/341 transporter complex**

**47/111 calcium channel complex**

*47/137 motile cilium*

*109/287 cilium*

**8/10 proteasome core complex**

**235/478 nucleoplasm**

**152/300 nucleolus**

**206/420 ribonucleoprotein complex**

**11/14 U5 snRNP**

*30/41 U2-type spliceosomal complex*

**70/127 spliceosomal complex**

**209/416 nuclear protein-containing complex**

*17/41 catalytic step 2 spliceosome*

**71/134 nuclear speck**

**103/202 nuclear body**

*14/17 methyltransferase complex*

**p < 0.001**

**p < 0.01**

*p < 0.05*
